

PRESIDENT ANSWERS R. R. BROTHERHOODS

But His Decision On Wage Demands Will Not Be Made Public At Present

(By Associated Press)
Washington, Feb. 13—President Wilson has reached decision on the railroad wage controversy. The President's decision was communicated to the heads of the brotherhoods, but what he said was not announced, at the White House. It was said to be "unalterable," and "based on justice to all interests."

Officials said it was a "decision containing a proposal" and from this, it is assumed the President refused to grant the wage demands and has made a counter proposition to the men. Secretary Tumulty declined to say whether the President specifically refused the wage demands saying "Every one wanted to settle the strike" and that the Brotherhood chiefs should have an opportunity to consider the President's suggestion or proposal without outside interference.

Director General Hines is understood to have suggested to the President that if wage increases are granted, the roads would seek a freight rate increase which would mean increased living costs. Inasmuch as the unions have been pressing strongly for living cost reductions, officials said there is reason to believe the President employed this argument in answer to the union spokesmen.

Union leaders promised to consider the President's suggestions.

They Got Him

(By Associated Press)
London, Feb. 13—It is officially confirmed that Admiral Kolchak, former head of the Russian government and one of its ministers, were shot at Irkutsk February 7th on the order of the revolutionary committee.

This Ought To Settle It

So many false reports became circulated that County Judge Frank A. Bullock, of Fayette, fired into the mob Monday that a statement from Adjutant General Dewese in a letter to Judge Bullock, General Dewese said: "A man from the military organization was placed at the window of your office with orders from me to fire if it became necessary to repel the mob from the Courthouse. This man promptly did his duty as ordered. I know absolutely that you had nothing to do with the matter."

This Hen Earned \$18.50

A Travis county Texas hen, earned for its owner \$18.50 during 1919, according to records kept by Mrs. Susan Waxier, who owns the hen. This chicken is a cross between Rhode Island Red and a White Leghorn. Her record for the year was 103 eggs laid, 73 chickens hatched and 62 chickens raised. Mrs. Waxier estimates a profit of \$18.50 on eggs and chickens sold. This egg-laying record has often been beaten but fancy layers are generally persuaded to abandon hopes of mothering a brood and this hen set six times during the year.

Slavin Farm Brings \$301

The Slavin farm of 125 acres on the Lancaster pike, seven miles this side of that city, was sold by Mrs. T. R. Slavin, as administratrix of her late husband last week. Center Bros. and G. C. Cox bought the place at \$301 an acre. This is said to be one of the finest farms in Garrard county. The sale of the personality realized good prices. Milk cows sold from \$140 to \$150 a head; shoats at 18 cent a pound, horses from \$100 to \$160 and mules from \$200 to \$275.

KAISER IN HOLLAND A MENACE TO PEACE

(By Associated Press)
London, Feb. 13—A new Allied note regarding the extradition of former Emperor William will be dispatched to Holland tomorrow, according to the Evening Standard, which says the note makes a strong appeal to the Dutch government not to create greater difficulties in Europe by insisting on the right of asylum for the man, characterized as the author of the world's present troubles. The note is also understood to assert the concerted Allied view that the presence of the former Emperor in Holland was a danger to the peace of Europe.

N. Y. Socialist Solons Face Real Prosecution New

DROVE A CAMOUFLAGED TRUCK

R. H. Martin and Wm. Kreege, two soldiers from Camp Taylor, who have been on recruiting duty in eastern Kentucky, stopped over for dinner at the Hotel Glyndon Friday. They were driving a camouflaged truck which saw service with the famous First division to which the men belong, in France.

USED STOCKS OF CLIENTS TO BACK THEIR OWN DEALS

Louisville, Feb. 13—Heavy dealing in traction stocks and money lost during the war in speculation on their own account by E. H. Morgan and Scott R. Frost for which the stocks of clients were put up as collateral, is assigned as cause for debts of approximately a million dollars covered by assets of only half that amount according to the testimony of Scott R. Frost junior member of the firm of F. H. Morgan & Co., bankrupt brokers, at a hearing yesterday afternoon before Judge Du Relle referee in bankruptcy.

NEGRO CREW LAKES BIG BOOZE TO CUBA

New York, Feb. 13—With a cargo of liquor valued on the books at \$4,800,000, and by onlookers at sums ranging from ten times that figure up to the equivalent of the national debt, the steamship Yarmouth of the Black Star Line, with a negro captain, a negro crew and thirty-four negro passengers, weighed anchor shortly before noon today in the Hudson River at the foot of West Eighth street, and sailed for Havana.

The Yarmouth had had more trouble than all the Uncle Tom's Cabin companies that ever played the kerosene circuit. Sailing on January 17 for Havana with her priceless cargo—wines, champagne and 21,419 cases of Green River—she had trouble at sea, signaled for help, and was towed back, after throwing 500 cases of whisky overboard off the Virginia coast. Twenty prohibition agents guarded the ship night and day at New York to prevent the stuff from getting ashore, and arrested several for trying to run the blockade.

WHY HE GRINNED

The American Legion Weekly had this one:
O'Hara stood surveying the body of his friend, lying in state. Then he began to smile.

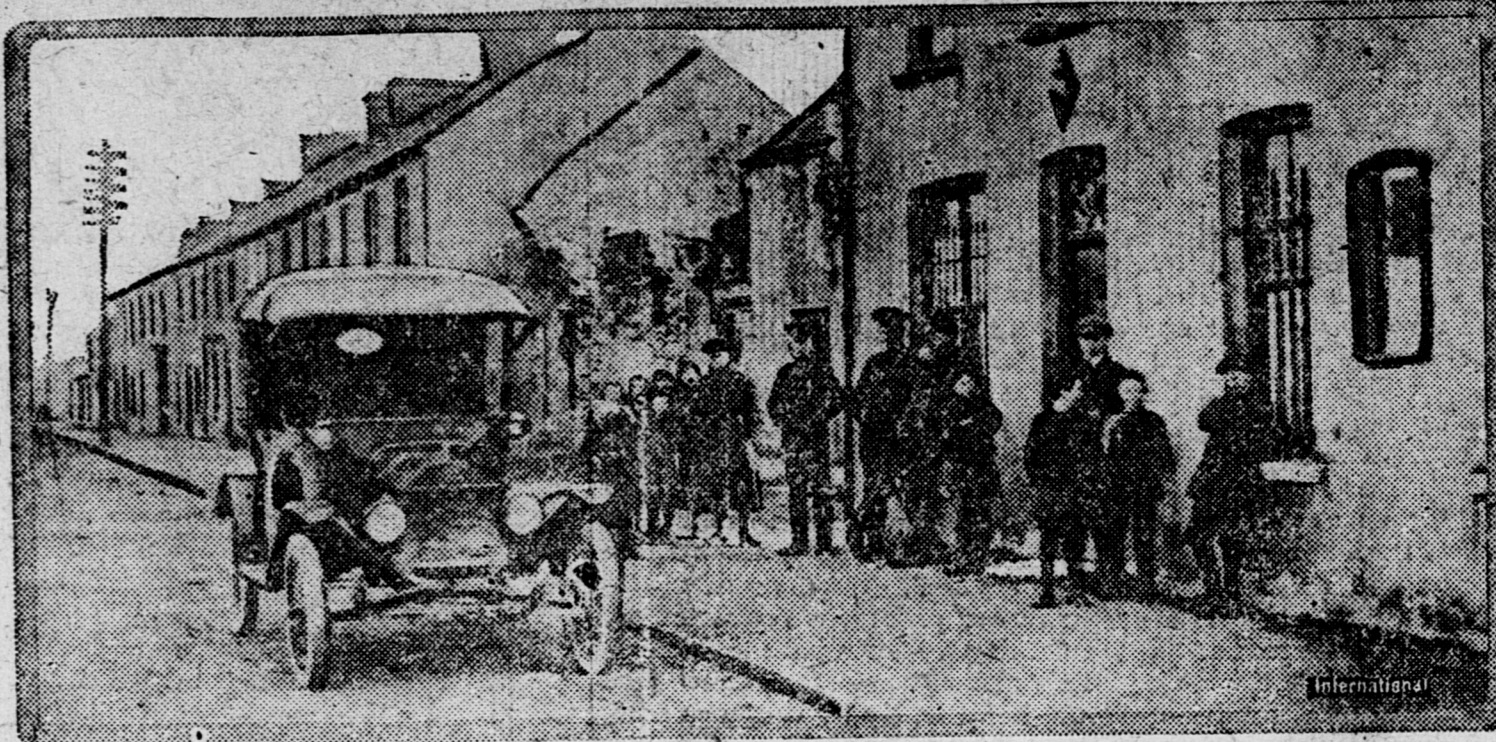

"What is there funny about it?" demanded an outraged friend.

"Twas only last week as Glancy was saying to me how there ain't no heaven an no purgatory. An' here he lies now, poor devil, all dressed up and nowhere to go."

MOB LEADERS ARE SAID TO BE UNEASY

(By Associated Press)
Lexington, Ky., Feb. 13—A special grand jury to investigate rioting here last Monday will be empaneled tomorrow morning, according to an order issued today by Circuit Judge Kerr, who was ordered to empanel the jury by Brigadier General Marshall, military governor of the city. The city is quiet today but the homes of officials against whom threats were made continue to be guarded. General Marshall intimated today that troops will be held here until any danger of a recurrence of the trouble Monday is past. It is understood considerable uneasiness exists among the mob leaders.

Jews Furnished 900,000 Soldiers In World War

London, Feb. 13—Dr. Max Nordau told the English Zionist Federation the other day that in the world war the Jews had furnished 900,000 soldiers to the various armies. This, he said, was about seven per cent of the whole number of Jews, a proportion equalled by few and surpassed only he believed, by the French. The Jews had lost 80,000 dead and had about 200,000 casualties.

But what had the Jews fought for, he asked. Even in the advanced and highly civilized countries of the West, he continued, a huge wave of anti-Semitism was welling up; in the new countries that had arisen in the East the most criminal passions were let loose against the Jews. In this dark picture there was one bright spot, the British Declaration in favor of a Jewish Declaration in Palestine.

BOGGS THINKS TRUCKS ARE GETTING TOO BIG

If Kentucky is to keep in condition the roads which are proposed under bills now pending in the General Assembly, Commissioner of Public Roads Joe S. Boggs is of the opinion that the weight of trucks will have to be reduced, said a dispatch from Frankfort the other day. The five-ton trucks permitted by law which will carry a weight of 24,000 pounds, Commissioner Boggs said are tearing up the roads in the State. He believes that the trucks should be limited to three tons. An investigation made by officials of Montgomery county disclosed the fact that the five-ton trucks permitted by law are working havoc with the roads in that county and they are recommending that the truck weight, which includes the load hauled, should be limited to 15,000 pounds. Commissioner Boggs goes them one better and proposes that the weight be limited to 6,000 pounds.

Sheriff Out Again

Sheriff Pete Whitlock is able to get down to his office again, but is still feeling considerably the worse from the injuries he received in that auto accident a few weeks ago. ASHURST WANTS SHIPS SOLD AT REAL VALUE

(By Associated Press)
Washington, Feb. 13—Senator Ashurst, democrat of Arizona, today introduced a concurrent resolution directing the shipping board not to sell at public auction here Monday 30 former German liners except through regular public bidding after three months' advertisement and then only if proper offers are received. Ashurst declared the shipping board intended to sell the ships to the International Merchant Marine for \$28,000,000. He asserted their pre-war value was \$154,000,000, and their present value \$300,000,000.

John B. McFerran Dead

(By Associated Press)
Louisville, Feb. 13—John B. McFerran, retired packer, philanthropist and characterized as one of Kentucky's most useful citizens, died this morning after several months' illness. He was 84 years old and known throughout the state as the "father of rural schools."

DEMONSTRATING THE FORDSON TRACTOR

A demonstration of plowing with the famous Fordson tractor is being given at the Starns farm on the edge of town, on the Lancaster pike, by the Richmond Motor Company. A special invitation is issued to the farmers of Madison county to see the work done on Saturday. Those who wish to go out from town are invited to call at the Richmond Motor Company's garage on West Main street, where a car will be furnished to transport all who wish to go out to the farm where the work is being done.

Robert Maupin is in charge of the tractor, and everyone who has seen the work that it accomplishes is loud in praise of its possibilities.

Mr. Virgil M. Gaines went out Thursday and spent several hours at the wheel of the tractor. He immediately placed his order for one of these machines, which bid fair to revolutionize the entire tractor industry. Mr. Gaines is loud in his praise of what it can accomplish. The work that it does shows for itself, and all interested are urged to go out and see it.

TAX ON JACK'S SHARE WILL AMOUNT TO \$304,350

New York, Feb. 13—A representative of Jack Dempsey, champion pugilist, called on William H. Edwards, Collector of Internal Revenue, at his office in the Custom House today and asked what the income tax would be on \$500,000.

Collector Edwards, with a pad and pencil, got busy.

"The normal tax on \$500,000 is \$40,840 and the surtax \$263,510, making a total of \$304,350," said the Collector.

"That means that if Dempsey gets \$500,000 for fighting Carpenter, he will actually receive but \$195,650," said Dempsey's representative.

"That's just what it means," said the Collector.

Dempsey's representative left the Custom House with a thoughtful look on his face.

NEW KENTUCKY POSTMASTERS

Washington, Feb. 13—Owen Daugherty will succeed to the postmaster ship at Caneyville, Ky., by Presidential appointment, due to the fact that Caneyville became a Presidential office July 1st last. The Senate has confirmed nominations for other Kentucky postmasters as follows: Jas. B. Yates, Cave City; John H. Myers, Crofton; Otis Conners, Dry Ridge; Henry C. Hurst, Jackson; R. J. Bondurant, Lynch Mines; Gustava H. Block, McRoberts; John M. Sims, Mt. Olivet; Martin L. Price, Jr., Van Lear.

WHILE THE CAT WAS AWAY, ETC.

"The Boys" Had Quite a Time With "White Lightning" At Mt. Vernon This Week

The old saying that when the "cat's away the mice will play" was rather conspicuously illustrated at circuit court in Mt. Vernon this week, according to Judge J. C. Chenault, who has just returned from the capital of Rockcastle county, where he went on legal business.

Judge B. J. Beatum, has been ill for several days with what seemed to be a cold, but he managed to crawl out of bed and charge and impanel his grand jury. He was so weak, however, that he was forced to his bed again, leaving the juries to get to work.

Among the prisoners were four men charged with moonshining who were placed in jail, and their still was offered as evidence. It seems that a member of the petit jury became involved some way in the proceedings, and the grand jury indicted him for moonshining too. Then one of the grand jurors got hold of some of the "white lightning," and got so drunk that he had to be clapped into the bastille.

While this was going on, the four "shiners" broke out of jail, and not wishing to leave any evidence behind them, they stole their still and outfit as they went along, and made good their escape, well equipped for business again.

Judge Chenault says that it was certainly a real comedy all round.

\$1 and Costs For "Cussing"

Wm Skinner, of the Berea section, was fined \$1 and costs in county court Friday morning on a charge of breach of the peace. He is accused of "cussing" a man by the name of Carter. Before the case came to trial the two men made friends again, and wanted a fine of one cent and costs entered. But Judge Price said he didn't believe in that small a fine so let him off with \$1 and the trimmings.

A New Idea

A great many methods of increasing the salaries of school teachers are being conducted by law makers and others, but it has remained for the school board at Covington schoolboard says many seems not to have been tried before. Supt. Cox there has been instructed by the Board of Education to communicate with State Superintendent of Schools Colvin in advocating an appeal to Congress for assistance in raising the salaries of school teachers. The Covington school board says many teachers are accepting positions in other fields where the pay is higher and that the situation is becoming a national menace. It is planned to urge Congress to enact legislation for the distribution of part tax on excess profits to the schools throughout the country.

NERVE

We heard of a lady who suffered with earache the other night. She could not sleep and the pain was most annoying.

Along about the wee small hours, when she became convinced that rest was out of the question, she calmly arose and dressed. Then she lit the fire and proceeded to do her week's washing. She found more comfort in working than in tossing in bed, and after breakfast when the pain had decreased, she went to bed with the added satisfaction of having her work done on time.

Few women would have the determination to follow this lady's example. Most of us, male or female, would have tossed and groaned and had the family up filling hot water bottle and waiting on us.

It is a great thing to have nerve and self-possession and determination, and we admire the lady's course beyond expression.

She will be greatly surprised to see her experience publicly commented upon and, we fear, may not be pleased but as we promise to keep her identity secret, perhaps she won't stop her paper.

FRANKFORT LETTER

Frankfort, Ky., Feb. 13.—With but a trifle more than four weeks remaining of the 1920 session of the Kentucky legislature, little constructive legislation has been enacted. The report of the Budget Commission of which Governor Morrow is ex-officio chairman, has been twice deferred. This commission, composed of department heads, has the business of making estimates for the next two years, under which all appropriations are to be divided. Ways and means of obtaining revenue provide a live problem for the administration.

When the Bluegrass senators took a principal part in calling for a show-down on coal and other mineral products, including rock asphalt, as to whether or not they are paying their share of the taxes, the mountain Republicans promptly retaliated by including tobacco in the inquiry. This attempt to tax tobacco was fought valiantly by senators from the tobacco-growing section, but the Republicans were strong enough to put the resolution over. It seems probable that there will be a deadlock between the two commodities, with the majority of the Republicans defending coal, and the majority of the Democrats rushing to cover tobacco from the imposition of a tax which would add to the farmer's woes.

Alertness of the senate democrats to needs of the agricultural section has been marked on more than one occasion. At one time having a majority in the upper branch, they were shorn of power when the Brock rules were put upon them by the defection of Senator C. W. Burton, who represents five strong Democratic counties, Grant, Pendleton, Gallatin, Owen and Boone, all of which gave majorities to Governor Black, and which district is normally 5,000 Democratic. These rules place the real responsibility for legislation on the Republicans. The best the Democrats can do is to watch and fight all inimical legislation.

Senator Clem S. Nunn, Crittenden county, called the Republicans roundly to task for a campaign of calumny. Rising to a point of personal privilege Monday afternoon, he showed where the Kentucky Republican, a weekly paper published by the administration at the Capitol, had by "implication" attacked Senator (then Governor) Stanley and Governor Black, on a word of convicted felons, one of whom, Joseph Wendling, was in the reformatory at Frankfort for the murder of little Ann Kellner, one of the worst crimes ever committed in Louisville.

Judge Nunn bitterly denounced the tactics of the Republicans and their publication of attacks on President Wilson, the League of Nations, and other propaganda of an offensive nature. He said that the "effluvia from the smelling committees" alleged to be investigating the prisons was sickening of all fair-minded persons.

Senator Brock in reply could do nothing but throw bouquets at the press, especially the mountain papers, which he said were always bragging on the Republicans. He disavowed the publication in the Kentucky Republican saying he never had seen the sheet until his attention was called to it by Senator Nunn, and said he never had heard of Sol. T. Steele, its editor.

The Power of Money

When William Payne, the banker at Bisonville, decreed that no farmer who did not raise cows as well as wheat could borrow money from him, the angry grain growers almost lynched him. But they had to do as he demanded—and today his county is an oasis in a blowaway desert, his depositors and borrowers are prosperous farmers, his bank is looked upon as the agricultural father of the whole countryside. Such is *The Power of Money for Good*. Herbert Quick, formerly a member of the Farm Loan Board, tells the story in the February 7th issue of

Ce-re-a-lia EGG MASH
the SECRET of EGG SUCCESS is BALANCED RATIONS

NO poultryman can balance his ration as perfectly as Ce-re-a-lia Egg Mash is balanced. Why risk a home-made mixture when you know that it is the perfect and unvarying balance of egg-making elements that produce eggs. Ce-re-a-lia Mash is a 20% protein food. It makes strength and it makes eggs. Your cost and production record will prove it to be the cheapest feed you have ever tried, results considered.

Lalley Light and Power

Saves Time in the Men's Work

Farm man-power is valuable. Lalley Light is
even more valuable, because it saves time and
work for the men.

The light in the barn, and other outbuildings,
saves time for the morning and evening chores.
"Besides lighting our house, barns, garage and
milk house," writes Ed. Wright, Glenwood, Ia.,
"Lalley runs the electric water pump, separator
and tool-grinder. I expect to put it to more use
before another spring."

Charles O. H. Peterson, Lycns, Neb., finds that
"the excellent light which Lalley produces saves
much time for the men in the farm buildings."

We could quote from other users—scores of them.
The story would be the same. Lalley Light
does save time and work, in a dozen ways, for the
farm men.

It is needed on your farm; and on every farm.

The time Lalley would save you this season is
worth the investment now. And it will continue
to pay for itself for years to come.

We want you to see Lalley Light—here or at your
home—just as soon as possible.

HEARD ABOUT TOWN

Miss Osie Hill gave her young friends a social Saturday night.

Flu at Wellesley has caused the quarantining of 1600 girls.

President Wilson has improved so much he may be able to pre- side at the next cabinet meeting.

Representative Harry Meyers, of Covington, is in the hospital in Cincinnati being treated for blood poisoning in a foot.

The gutter was anointed with a quart of whisky found in the pocket of Tom Turner, colored, and he was fined \$100 at Harrodsburg.

Plans have been drawn for a large theatre to be built at Pineville this spring on lots belonging to J. D. Smith.

In January tobacco sales in the state reached 115,274,819 pounds, at an average of \$34.63 per hundred. January, 1919 the average was \$32.93 for 11,838,347 pounds.

The big tobacco barn owned by J. Carroll Hamilton in Montgomery county, with contents of 10,000 pounds of tobacco, was destroyed by fire. The building was covered by insurance but the tobacco was uninsured.

NOTICES HER

NEW STRENGTH

AT HOUSEWORK

This Cincinnati Woman Much Stronger Since She Took Vola-Tonic

"I'm so much stronger since I have been taking Vola-Tonic that I can easily notice the difference when I am doing my housework," said Mrs. Emma Wambanz, Britton avenue, Madisonville, Cincinnati, O.

"I've only been taking Vola-Tonic about three weeks, too," Mrs. Wambanz added.

"Before I took Vola-Tonic my stomach was out of order and I was weakened and run down generally.

"My appetite and digestion were so bad that I missed a great many meals altogether and when I did sit down to a meal I ate only a very little. My digestion was so poor that often I think my food layed in my stomach from one meal to another without digesting. Of course, this made me feel mighty bad.

"Vola-Tonic has put my stomach in excellent condition. My digestion is good now and my appetite has come back fine.

Vola-Tonic also made me feel a great deal stronger. I can notice it when doing my housework because it is a great deal easier.

"I gladly recommend Vola-Tonic to everybody.

Vola-Tonic, "Builder Of Strength," invigorates the entire system. Vola-Tonic brings a good appetite and good digestion and helps the stomach take strengthening nutrition from food to nourish and build up the body and system all over. Vola-Tonic also soothes the nerves and permits sound, energy-restoring sleep every night. As a result, full normal strength and health soon come to the weakened, run-down man or woman.

Vola-Tonic is being specially introduced in Richmond at Richmond Drug Company.

LANCASTER

Mrs. Louise Kauffman Shackelford wife of Mr. John Shackelford, of Wichita Falls, Texas, died suddenly last Tuesday morning at her home. Mrs. Shackelford is survived by her husband, and two children, Clay Kauffman, 8 years old and May, 4 years old, her mother, Mrs. Emma Kauffman, one sister, Miss Frankie Kauffman, and one brother, Mr. Clay Kauffman. She was a member of the Christian church and graduated at the Richmond University and held a position in one of the public schools in St. Louis Mo., for a number of years. Mrs. Shackelford had been married 8 years, and the last two years they have made their home in Wichita Falls, Texas, where the Selden & Breck Construction Company of which Mr. Shackelford is a member, built them a new bungalow. The funeral services were held Friday morning at the home on Danville avenue at 10 o'clock, the Rev. F. M. Tindler assisted by Rev. E. R. Bourland officiating. Burial followed in the family lot in the Lancaster cemetery.

The remains of Mrs. Emma Wash burn Price, wife of Mr. T. Johnson Price, of this city, were brought from Deland, Fla., Wednesday night. About twelve years ago she was married to Mr. Price. She was one of the leading figures in our social and club life and a most active member of the Christian church. Besides her husband, she is survived by four sister and one brother. After the funeral services Thursday afternoon at the home the burial took place in the family lot in the Lancaster cemetery.

Mr. Webb Kelly, of this county, has made a record this year with five acres of tobacco. From five acres of measured ground, Mr. Kelly sold \$5,678.17 worth of tobacco over the breaks of the Garrard tobacco ware house at an average close to the dollar mark. From this same piece of ground and same tobacco he gathered his celebrated seed, amounting to 4,000 ounces, which he sold and delivered and for which he received \$8,000, making a total of 13,678.17 from five acres of land.

The banquet given at the Kengarla Hotel by the Garrard Tobacco Ware house company was largely attended and thoroughly enjoyed by the guests. The large table was arranged in the shape of a "U" and had for its decorations carnations and huge roses. Judge L. L. Walker preside as toastmaster and the following responded to short toasts, Mr. J. F. Robinson, Mr. W. R. McCary, Mr. J. K. Turner, Mr. John Farra and Mr. James Shelburn.

The flu has again made its appearance in this section and 130 pupils of the Lancaster Graded school were absent one day this week on its account.

The Woman's Club met Thursday afternoon at their rooms on Lexington avenue. A good attendance was present and after the business meeting a social hour was enjoyed. Several kind of sandwiches and chocolate were served. The hostesses of the afternoon were Mrs. Sam Haseldew Mrs. Price and Miss Elizabeth Gibbs.

A CHANCE TO TURN POOR LOTS INTO GOOD

When street construction begins there will be a large amount of dirt waste. Owners of lots that need filling should file once a written request for dirt with S. F. Creelias, City Engineer, giving exact location, the lot or lots so he can furnish the contractor with a list of the most convenient to the work where dirt may be wasted.

NOTICE TO CONTRACTORS

Sealed bids will be received at the office of J. W. Maupin, County Clerk at Richmond, Ky., until 12 o'clock noon Tuesday, March 2nd, 1920 by the Madison County Fiscal Court for the improvement of the Richmond-Irvine road number 73cl from station No. 0 to station No. 414, a distance of approximately 7.85 miles. The improvement will consist of shaping that road, constructing necessary drainage structures, and surfacing it to a width of 14 feet with water-bound macadam.

This work is a State Aid Project.

Plans may be seen and instructions to bidders specifications and forms of proposal secured at the office of the County Clerk and County Road Engineer at Richmond, Ky., at the office of the Department of Public Roads, Frankfort, Kentucky.

Blue prints of the work may be obtained from the Geo. J. Fetter Company, Louisville, Ky.

A certified check payable to the Treasurer of Madison County equal in round numbers a 5 per cent of the bid must accompany each proposal.

The right to reject any and all bids is reserved.

Work To Be Rushed On Eastern

Dixie Highway

With the commencement of work on the last uncompleted section of the Nashville-Chattanooga division of the Dixie Highway over Cumberland Mountain, and the certainty of the completion of the Dixie Highway between Cincinnati and Knoxville on the eastern division, the Dixie Highway Association has begun preparations for a big dedication to be held during the late summer or early fall of 1920, which will make the opening of the Highway to through travel from the North to the South. As there are two routes of the Highway south of the Ohio River through Kentucky and Tennessee, with both possessing mileage of mountain road, the Dixie Highway Association has decided to allow these divisions to compete with each other as to which route shall be made by disinterested representatives from the leading Motor Clubs who will make a trip of inspection over both routes prior to the dedication. In the event that both routes are ready a round trip dedicatory tour will be made over both divisions.

The Chicago Motor Club, Detroit, Cincinnati, Louisville, Nashville, Knoxville, Chattanooga, Atlanta, Macon, Jacksonville, Miami, Tampa and other automobile organizations as well as interested in the opening up of the Dixie Highway, have already started their preparations to participate in the civic bodiesshdldrhulmfwypwv the dedicatory tour. The Chicago Motor has signed up over two hundred cars to make the trip to the point of dedication. They have arranged for the participation of Government trucks with demonstration wireless and telegraph outfits.

In order that their cities may have the honor of being on the division to be first opened up for through travel, the Automobile Clubs on the competing routes are taking steps to speed up construction work. One of the first organizations to do this is the Cincinnati Automobile Club, which has arranged for a joint meeting with the Knoxville Club at a convention point on the Highway. Similar steps will be taken by Louisville and Nashville organizations.

In preparation for the dedication of the Dixie Highway, Secretary V. D. L. Robinson will go over the entire Highway, driving every mile of the road in his Biocoar. The Highway in the states of Georgia, Florida, North and South Carolina will be covered first. On the return to Chattanooga the Highway to Detroit and Chicago, over both divisions, will be covered. Secretary Robinson will confer with the various road officials and commercial organizations enroute with a view of assisting in providing a travelling highway for the tourist travel by the winter season of 1920-21.

Chronic Constipation

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets afford a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation. DOLLARS AND CENTS

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself. In fact, a bottle of this remedy in the house is a mighty good investment during winter and spring months. Feb.

Worst Form of Unbelief.

The fearfulness of unbelief is unbelief in yourself.—Carlyle.

They couldn't be built now for twice \$71,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—road-bed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American railroads to pay the highest wages while charging the lowest rates.

The Man.

Balzac left in manuscript a chapter which he called "Theorie de la Demarche," in which he says, "The look, the voice, the respiration and the attitude or walk are identical. But, as it has not been given to man the power to stand guard at once over these four different simultaneous expressions of his thought, watch that one which speaks out the truth, and you will know the whole man."—Life of Balzac.

Paper Resists Fire.

Wrap up a very smooth piece of lead in a piece of paper, then hold it over the flame of a taper; the lead will be melted without burning the paper, providing there are no wrinkles in the paper and that it is in contact with the lead everywhere. —Electrical Experimenter.

When the Railroad Was New.

Among the oldest forms of decorated glass bottles or flasks known to have been made in the United States is one which bears a relief design representing the first railway. The device shows a horse drawing a four-wheeled car along a rail. The vehicle is piled full of bales, lumps of coal or packages of freight. Around the margin is "Success to the railroad."

Tribute to Great American.

Carlyle and a friend were walking a street in London many years ago, and suddenly Carlyle gripped his friend's arm and said: "Who is that man that passed?" And the friend replied: "That is Daniel Webster of Massachusetts." And Carlyle said: "He looks like a walking cathedral." —Electrical Experimenter.

Date of Christ's Birth.

The Christian era, first used by a monk, Dionysius Exiguus, in the year 533 A. D. and adopted by Christian nations at a later period, was intended to begin with the birth of Christ. Dionysius is believed, however, to have made an error in fixing that event in the year of Rome 754 instead of 750. Christ's birth is now considered to have taken place in or before the year 4 B. C.

Burmese All Fond of Tobacco.

It is commonly asserted that the Burmese all smoke, and that Burmese babies cry for a cigar instead of crying for the moon. This is not so. But it is quite common to see a lot of little boys and girls in the street making mud-pies and puffing away at big cigars with equal enthusiasm.

Come In and Try On Our Dressy Balkan Blouse Suits

Balkan blouse suits, if properly designed express youthfulness—they're also a bit more dressy than some other types.

The short bell sleeve is another new 1920 note, as in the snugness about the hips with just the slightest suggestion of a soft blouse above.

We are particularly interested in showing you Wooltex Balkan blouses.

A new fine tricotine called Almarette was well chosen by the Wooltex designers for this particular suit. The smart lines will remain smart—there's a Wooltex label in the collar which promises this.

\$5 PER MONTH FEEDS ORPHAN

Cleveland H. Dodge Shows What
Near East Relief Can Do in
Efficient Purchasing.

Buying in wholesale lots and under the most favorable market conditions, Near East Relief of 1 Madison avenue, New York city, with representatives in every state of the Union, has been able to baffle the high cost of living so far as relief supplies for the suffering millions of the Near East are concerned.

Cleveland H. Dodge, treasurer, in a statement shows that the committee is able to provide food for the suffering people of the Near East at prices much lower than the average charge here.

A donation of \$5 per month will provide food for one orphan, \$10 per month provides not only food, but also clothes and shelter for one orphan, and for \$15 per month attendance at school is assured to each orphan in addition to food, clothing and shelter.

In the appeal for funds to save the starving remnants of the Armenians and other western Asia peoples, Near East Relief is inviting the American public to "adopt" an orphan at the rates given here. Over 250,000 homeless children are in need of help in the Near East. Women's organizations, lodges, churches and social clubs are responding to the appeal by adopting quotas of orphans for support over a definite period.

Main Claims Relief Gained Thru
Trutona Treatment
Worth \$100

Owensboro, Ky., Feb. 12—"I only spent \$1 for my first bottle of Trutona but I wouldn't take \$100 for the relief that it gave me." This is the statement of Mr. W. H. Hornbaker, 58 years old, of 1120 Breckenridge Street. Mr. Hornbaker is assistant yard foreman in the Murphy Chair Co., and during his 30 years residence in this city had become very well known.

"A catarrhal affection of the head and bronchial tubes caused me much trouble," he said. "I was bothered with constipation and my kidney were out of order. My bowel did not act for two or three days at a time. I was constantly annoyed with the dripping of mucus from my mouth. Often I became choked up and would cough until I vomited."

"Well sir, Trutona has certainly improved my catarrhal condition. The mucus has become loosened and I can spit it out without suffering the terrible coughing spells. My kidneys are in better shape too. Why, I can walk all the way home without my back hurting me. There are 100 men in our factory and I am daily recommending Trutona to some of them who need relief."

Trutona is now being introduced and explained in Richmond at the Richmond Drug Company.

HOUSEWIFE BECOMES NEW WOMAN

"All of our best doctors had given me up. I was unable to leave my bed for 16 weeks and was yellow as a pumpkin, besides the terrible stomach pains, I suffered. Our druggist advised my husband to try Mayr's Wonderful Remedy and it has saved my life. I am a new woman, now." It is a simple, harmless preparation that remove the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Sold by H. L. Perry & Son and druggists everywhere.

Walking Snakes.
It is supposed that the early ancestors of modern snakes walked on four legs. Some big serpents, such as the boas, even now have rudimentary hindlegs. But the "feet" on which all snakes do their walking today are the cartilaginous extremities of their ribs. To preserve these is the greatest difficulty in the preparation of an ophidian skeleton.

Conditions That Bar Happiness.
No man can be happy when he despises his own acts, when he has any consciousness of wrong, whether of motive or act. No man can be happy when he harbors thoughts of revenge, jealousy, envy or hatred. He must have a clean heart and a clean conscience, or no amount of money or excitement can make him happy.—Exchange.

BEND

"Brains and hair will not stay together", that is why there are so many bald-headed men around College Hill.

Mr. and Mrs. David Chamberlain entertained in honor of their niece, Miss Victoria Young Saturday evening. Quite a number of young folks were present. The reported a good time and are hoping to meet again.

Joseph Vaughn had six cattle to die recently.

Tobacco is all taken to market that was raised in the Bend. Prices were good. There will be a large acreage sown.

James D. Congleton is getting ready to go to his farm which he recently bought in Indiana.

The farmers are getting ready for the coming crops. A great deal of clover will be sown. Thirty-five dollars per bushel is no set back to the man who wants to keep up the fertility of his soil.

Richardson and Sons are cutting bushes and briars on the farm recently purchased from J. D. Congleton, which has not been cultivated in 20 years. They say this land will grow 1000 pounds of tobacco per acre.

The teachers of the public schools are anxiously awaiting for the news to be passed by the Frankfort lawmakers, fixing their pay at \$75 to \$110 per month, according to the grade of certificate they hold. All of which we are afraid will not be done.

Composition of Pennies.
Pennies are made of 95 per cent copper and 5 per cent nickel and zinc. The material which goes into them costs about 22 cents a pound and this pound makes up into 120 one-cent pieces. They are distributed to banks at their face value, so the profit is \$1 a pound, less the cost of manufacture, which is not great.

Lincoln's Little Joke.
Once in his law days while Lincoln was in Chicago trying a suit, his wife had the roof taken off their house to make the house high. On Lincoln's return he manifested great surprise, and asked a passerby, "Stranger, can you tell me where Lincoln lives?" Receiving the desired information, he then gravely entered the domicile.

Black Patch Growers Don't Like Price Decline

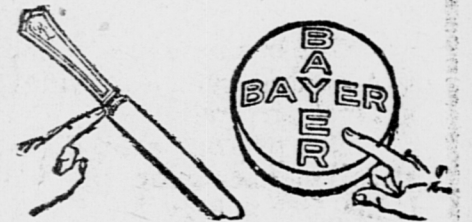

At a meeting of land owners at Owensboro Tuesday steps were taken to protect the tobacco growers from the low prices now being paid for the weed in that district. Another meeting will be held on Feb. 21. In the meantime the growers were urged to hold their tobacco in the barns awaiting developments.

The farmers in the Green river district are fortunate in the fact that more than two-thirds of the crop was sold when the high prices were prevailing. It is said that in Black Patch of Western Kentucky and Tennessee not more than 10 per cent of the crop had been sold when the drop in the market occurred.

A half million pounds of prior tobacco has been sold over the Owensboro market this week at an average price of only \$11.50 per hundred pounds, one of the lowest marks in three years. The season average in Owensboro on nearly 25,000,000 pounds in close to \$18 per 100. Burley from a field that yielded \$96 a hundred six weeks ago sold for only \$9 a hundred. It was pointed out that it would be cheaper for a grower to buy tobacco over the loose-leaf floor and resell it next year than attempt to raise another crop at the prevailing prices. Buyers blame the foreign exchange situation for low prices. It is known that some of the foreign contracts have been canceled.

Races May Succeed Liquor Taxes

Frankfort, Ky., Feb. 13—That the race tracks in the State will become one of the most profitable sources of revenue to the State seems certain. They will take the place of liquor as a revenue producer if the plans of the leaders of the present session of this legislature are carried out.

The plan is to raise \$500,000 annually from race tracks.

There are two reasons for this heavy tax. The first is that it may deter the radical anti-race track legislators from endeavoring to eliminate them, and second is, the State-need of the money.

The bill to produce this large sum of money will have the backing of the administration, it is said.

BIFF!

Stop jolting Liver and Bowels
with violent drugs, but
take "Cascarets."

"Dynamiting" bile out of your system with calomel and other sickening purgatives is all wrong. Salts, Oil, and Cathartic Waters act by flooding the bowels with the digestive juices which are vital to the stomach. Cascarets are different. They act as a tonic to the bowel muscles, which is the only sensible way to relieve a bilious attack, a sour, acid stomach, or constipated bowels. There is no griping or inconvenience. You naturally return to regularity and cheerfulness. Cascarets cost very little and they work while you sleep.

DIRECT DEALING PAYS BEST

When cream is ready to sell, the hard work has been done and you should not permit any outsiders to make an extra profit off your efforts.

You can ship your cream DIRECT to the Tri-State and save from 3 to 5 cents per lb. of butter-fat. It is just as easy to deliver the cream to a railroad station as to a buying station. The Tri-State pays the freight and guarantees your cream against loss in transit.

Mrs. Thos. Daulton, Peebles, O. writes us on Nov. 25, 1919—"I have shipped cream to the Tri-State Butter Co. for three years and have been satisfied. I have sold cream to cream stations in order to return the empty can with me, as I live 9 miles from the railroad and always lost from \$1.50 to \$2.00 on every can of cream sold to agents.

CONSTIPATION

DR. CALDWELL'S Syrup Pepsin is a combination of simple laxative herbs with pepsin that quickly relieves the congestion of undigested food and poisonous waste matter, and restores the normal regularity of natural action. It does not gripe or cramp and is as safe and pleasant for children as it is effective on even the strongest constitution.

Dr. Caldwell's Syrup Pepsin is the indispensable family remedy in thousands of homes and is sold in drug stores everywhere.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

Yellow Mustard For Rheumatism

A good hot mustard plaster or poultice is pretty sure to overcome most rheumatic pains and even sciatica and gout but it's a messy affair and generally blisters.

Heat is absolutely necessary if you want permanent relief. Begg's Mustard, made of true yellow mustard with pain-relieving ingredients added is just as hot, is cheaper, cleaner and more effective than the old fashioned poultice or plaster and cannot blister.

Besides rheumatic pains and swellings Begg's Mustard is speedily effective for lumbago, backache, neuritis, pleurisy, bronchitis, sore throat, chest colds and all aches and pains because heat eases pain—30 and 60 cents at druggists or by mail, S. C. Wells & Co., LeRoy, N. Y. "It

Colonel Haskell Reports to Near East Relief on Desperate Needs of Helpless.

"Peace may come elsewhere in the world, but hunger knows no armistice in the Near East," says Colonel William N. Haskell, Allied high commission in the Trans-Caucasus, in an appeal to Near East Relief, 1 Madison avenue, New York city, for food and supplies for the relief of the starving millions.

Colonel Haskell is in charge of all operations and disbursements of Near East Relief in the Caucasus.

"There is no fuel or shelter for the greater part of them during the terri-

COLONEL HASKELL.

ble winter in the mountains," he says, "and the existing food supply is entirely inadequate for the great number of refugees without resources of any kind."

"By a recent agreement between the premiers of the republics of Armenia, Azerbaijan and Georgia to cease hostilities and settle all differences by arbitration one obstacle to relief work in the Caucasus has been removed and makes accessible a great number of destitute people who otherwise would perish this winter."

"Two hundred thousand destitute Armenians and Tartars can now be reached in the districts of Karabagh, Shusha and Nakhichevan, in the south-east section of the Trans-Caucasus, and we are planning to extend our work there. The economic situation is so desperate and food supplies so scanty that the Georgians have ordered 100,000 persons, mainly Russian refugees without employment, to leave the city of Tiflis. About 45,000 workers in the oil fields of Baku have been ordered by the Azerbaijanese to leave the city because there is no work for them and food is scarce."

Around every station along the railway are gathered groups of hundreds of homeless people lying huddled together on the ground, the majority of them too weak even to try to help themselves. From time to time the stronger ones climb on freight cars and more elsewhere, always seeking better conditions, which do not exist. Two hundred and sixty-three thousand homeless refugees from Turkish Armenia thus are constantly milling about throughout Russian Armenia, making the relief work conducted by the Americans a problem requiring infinite patience and organizing ability.

"This is especially true in view of the existence of 248,000 destitute inhabitants of Russian Armenia who possess homes, but no food, as well as 150,000 Greeks, Russians, Persians, Syrians and Yezidis who have been driven out of parts of Transcaucasia."

"One hundred and forty thousand Moslems, whose villages were destroyed in the course of five years of constant warfare, are helplessly encamped in the open around villages of their former enemies, begging infinitesimal quantities of flour, which they mix with dirt to give the illusion of nourishment."

"These hundreds of thousands of suffering adults, mostly homeless and lacking every necessity of life, having nothing more to lose, are concentrated in a country as yet inadequately policed or governed. They constitute a fertile field for the seeds of Bolshevism or any form of anarchy, the spread of which once loosed would be impossible to predict."

"It is generally admitted in the Caucasus that the Americans of the Near East Relief already have saved the lives of at least 30,000 babies and children and of 500,000 adult refugees and
